[A number of the following, catalogued as cleaned, are from the well-known collection of the late Mr. Brechemin, of Philadelphia, who cleaned all his cents, even when they were strictly uncirculated and of a beautiful light olive color, his desire being to have them all bright. Some of them can scarcely be distinguished from original color, and many are beautiful cents, and purchasers can easily darken them if they so desire, but undoubtedly age will turn them to a good olive color.
